Closing of the Bolsa.

THE FINANCE MINISTER vs. CAMARA SINDICAL.

NOTE TO THE CAMARA SINDICAL.

THE CHIEF OF POLICE CALLED IN.

Last night at a late hour Mr. Varela signed two important notes which burst like bomb-shells in the quarters where their contents first leaked out. It was not considered probable that H. E. would proceed to extremities with the Camara Sindical, but as if scenting danger in the breeze on being made aware of the Camara's intention to fight the battle out, H. E. without a moment's hesitation ordered the Chief of Police to close the Bolsa hermetically, giving right of entry solely and only to the president and members of the Camara Sindical and porters in charge of the establishment. H. E. then turned his attention to the Camara Sindical itself and sent it a stiff note, advising the members of the measures adopted, adding that their attitude could only be ascribed to one of two causes, either that they were unable to procure the fulfilment of the decree or that they deliberately set it at defiance.

It is due to the Minister to state that these measures were rendered a necessity by the action of the Camara who put the fat in the fire by forwarding H. E. a note in which his authority to interfere in the Bolsa is respectfully disallowed. Only one of two courses was thus left open—battle or retreat, and with the vigour and energy which has characterized the Minister's action throughout in the matter he has elected for the former.

This keynote of alarm will create consternation and no small confusion, not only in the ranks of bulls, bears, stags and guttersnipes but in the commercial world generally. What are merchants to do for their gold? What are brokers to do for their commissions, shipbrokers for their freights, and produce-brokers for their clients? The Bolsa with its traditions and memories was a meeting-place for all, worthy of the vast business interests worked from its centre and with which it rose, progressed and thrived. It would be of course absurd to suppose that such a vast institution can have its career thus untimely blighted. Mr. Varela is neither Vandal nor Goth. He seeks not to desecrate nor destroy the temple but to purify it, and his interdict will only have a momentary duration. But in any case, whatever issue may arise or determination be come to, it will take more than a minister's note or a police commissary's influence to uproot and crush the Bolsa de Comercio.

NO MORE GOLD SALES.

Whatever may be the result of Minister Varela's decree against gold sales, all must admit that the object of the measure is good, and as such merits a trial. If that trial prove a success, and this market is emancipated from the thraldom of the Bolsa gold ring, then there is no praise too great for the Minister, no nineteenth River Plate century without Rufino Varela.

The interests which this great measure affects are so vast and so numerous that none should be astonished at the opposition it meets with. Society is so formed in this, as in many other countries, that the majority is silent and without representation, whilst the minority is noisy and almost controls the press.

Minister Varela's preamble to his decree is a careful well-drawn up document, and yet it is not exhaustive, since in the long category of abuses which it exposes, it overlooks one solemn fact, and that is, that at the will of the smallest broker at the ring at the closing hour, an additional ten cents could be stamped on to the closing price of gold, and that closing price for the next 24 hours was the official liquidating rates at all the banks and at every market throughout the Republic.

When we consider all the gigantic interests of the Plate at the hazard of a broker's shout, all the affairs of the country that hung on the will of some young fellow around that ring, who perhaps, if the truth be known, had not the price of a pair of boots; when we measure the distance between the millions of transactions of our banks and the markets, and the utter insignificance of the party who affects them, we come to see the target at which Mr. Varela has so courageously aimed and so unerringly hit.

In the open market, and in the strictly speaking commercial community, this measure is viewed with such favour that merchants are determined to uphold the Minister; and should the Camara Syndical offer any opposition, a meeting of merchants will be called, which will give expression to the true opinion of bona fide merchants, not speculators.

Even the bankers with whom we have conversed all praise the measure. Gold speculation had of late so increased that the managers looked with apprehension to the end of each month, the cash movement to liquidate a single monthly business being so enormous that extra clerks had to be put on to despatch the numerous brokers that crowded round the bank counters. Last month have we not seen one party buy up six millions of gold dollars, which at once raised the premium 10 points? And that same party this month has sold out, netting a very handsome profit on the transaction.

If this unbridled speculation were in Stocks, Cedulas or Bank Shares it would be less injurious; but in gold it enters into all the affairs of life—the bread we eat, the house we live in, the clothes we wear—all are caught within the coils of the gold speculation, all contribute towards the game which Minister Varela has had the moral courage to put an end to.

Gold will henceforward be bought and sold in this market the same as bills of exchange; and although we do not think that the measure in question will increase the value of our currency or reduce the price of gold, still if it checks the speculation it renders good service, and perhaps rescues us from a crisis which at the rate things were going on at the Bolsa seemed inevitable.

The present measure we understand is but a prelude to others which the Minister contemplates bringing before Congress next May. Let us all hope that the trial which in the interlude will be afforded, this gold edict will better guide the Bolsa judgment of the projects to be brought forward, and of the Minister who has the brains and energy to propose them,

MINISTER VARELA'S REPORT.

IMPORTANT FINANCIAL PREAMBLE.

Owing to the extreme length of Mr. Varela's preamble, which would fill every available column of our paper, we are constrained to divide it into chapters. Our readers, both here and abroad, will be interested in this important document, which shows that our energetic minister is determined to grapple with the situation. The following will be the first chapter of this remarkable preamble:—

Mr. President,

For some time past the country has been suffering serious injury owing to the use to which the currency authorized by Congress has been put, and, if part of this injury may be traced as the natural consequence of forced currency, the greater perhaps, in my opinion, is nothing but the logical result of the conduct of the few to the detriment of the entire community. In every nation money is the standard of value created by the State in order that the inhabitants by this means may measure the value of every article of commerce. For this reason, to fix the value of money, to restore its compulsory and legal use, comes within the province of the Sovereign, and whatever this value may be, if the law do not grant retroactive action, it cannot attack or injure social interests, in as much as the right which every one enjoys of determining the value of the objects he wishes to sell allows him at the same time to fix the value of money according to his own judgment, without rendering himself liable to suffer any detriment to his interests by the value fixed by the State. Thus, in the case of a nation which has raised its money to an artificial level by giving to a gold or silver coin a higher value than that at which it is received by other nations, the inhabitants of the country, in determining the price of their articles of commerce, take the measure of the value of the money, but they take the precaution to multiply in order to cover all the expenses and ensure the profits they expect to realise on the sale of those articles.

This option to fix prices explains the modern mechanism of commerce, even amongst nations with different monetary standards, and amongst which a varying value is assigned to gold or silver, and even amongst nations ruled by forced currency. In this mechanism, the principal agent is the absolute international value of each nation's money, in regard to international commerce. In the case of home-trade the principal agent is the relative local value of the money circulating as compared with its international money. Thus when we buy from England, which sells in sovereigns, we must pay in sovereigns, and then we give our money international value. We say, for example, that the Argentine gold dollar is worth 48 pence, say the fifth part of a sovereign. This equivalent of 48 pence is the international value of our dollar, and if in exchange-operations this value varies, it is exclusively due to the large or small quantity of sovereigns held at the disposal of the country in London, and to the varying rates at which the sovereigns are handed to us.

If the Argentine Republic had no other money but gold the relative local value within the nation, for determining prices of articles of produce or consumption, would be fixed by the price of exchange. Thus, to-day with exchange low, the Argentine gold dollar would be worth 47½ pence and the importer would fix his prices on calculation, since that rate would be for him the basis for the purchase of sovereigns in which he would have to pay for his goods. In his turn the exporter finds 47½ pence a high rate of exchange, since he sells sovereigns to buy products, the more dollars he can get for his sovereigns the better the exchange for his interests. In his turn, I was saying, the exporter would take the rate of exchange as a basis to calculate the purchase of products, and in this manner both the exporter and importer (dealing with England) would measure the value of the Argentine money by the rate of exchange, supposing our money to be gold. This phase of the situation would give no cause for anxiety. Forced currency prevails throughout the country, which has come, as it always comes, forced on us by the exigencies of the moment, and under these circumstances our money is paper, in other words bank-notes, for the moment inconvertible. This money enforced by the Sovereign, that is the people, should circulate for its written value, which is the promise to pay one dollar gold for one dollar paper. This money, being legal currency, is, it may be said, the only medium employed within the confines of the Republic. As this promise to pay gold within an undetermined term is not specie, it is not exportable, and consequently cannot serve as international money. But its relative value should always be regulated by the same laws which regulate the value of Argentine gold money, that is, by its power to purchase international money, which is gold: In the meantime, Mr. President, the present circumstances with us are very different, since there is no bank or commercial firm here that would sell bills of exchange for bank-notes, or what is commonly called paper. In other words the bank-notes here do not fulfil their condition of money, even at their depreciated value. What are the causes of this abnormal situation in this commercial community? We know that formerly, in similar circumstances, such was not the case. I shall endeavor to explain to Y. E. the reasons which in my opinion are at the bottom of this anomaly and which have driven me to submit these decrees to the consideration of Y. E.

(To be Continued)

LONDON LETTER.

WHERE ARE WE?

From our own Correspondent

Feb'y 15th.

Where can we expect to be or go to? if a serious paper like the *Evening Post* writes such stuff as this, and to-night:—

"When the Duke of Westminster gave fourteen thousand pounds to Mr. Robert Peck in 1875, for Doncaster, after winning the Alexandra Plate, he was not considered to have made by any means a very good bargain. His Grace has just sold Ormonde, the grandson of Doncaster, for fourteen thousand pounds, for exportation to Buenos Aires. Moreover, Doncaster was the sire of Bend Or, a Derby winner, who in his turn sired Ormonde. To possess three generations of winners of the Blue Riband of the Turf is an unique experience. But this is not all the benefit derived by the duke from the purchase of Doncaster. Ben d'Or was not merely a Derby winner, but carried off many other important races for his noble owner, his winnings amounting altogether to over twenty-eight thousand pounds. The excitement produced in the racing world on each occasion of his meeting his equally famous adversary, Robert the Devil, will never be forgotten by the present generation of turfites. The Duke of Westminster stands in the proud position of being the only owner of race-horses who has made breeding pure and simple pay its expenses"

Yes, but how does the Duke stand in regard to his property in Westminster? The London County Council's aggressively democratic spirit, the tread of the Parnell commission, the undoubted disgust of conservatives as well as of Liberals at Balfour's swash-buckling in Ireland, the Radical uprising in Lord Hartington's own constituency, the discredit of courts and the overthrow of idols at Vienna and Berlin, the failure of Lord Salisbury's foreign policy, his still greater failure in his colonial policy, the sneaking half-advances of Mr. Chamberlain at Glasgow towards reconciliation with the Radical party, the outspoken denunciation by Lord Compton and others of the horrors of landlordism in London, the threat to tax the ground rent holders to the hilt, the advent of Mr. Henry George in March, the great meetings at the West End on the question of the dwellings of the poor, the confession of Lord Compton—and would you believe it? that saint of political economy, John Morley—that they approve of socialism if it does not mean communism—and of course it does'nt—all indicate a great political movement in this country, and that's where we are. Where they are in France, you will know better than I do now long before you receive this. M. Floquet has been turned out more by the opportunists than by the Boulangists or reactionists. The Ferryists are the W. H. Smiths, the Goschens of the French Republic—the Wilsons, the middle-class thieves; the jews, the methodist-grocers, the stockbrokers of France. It is such as they who make socialists, cause revolutions and the spilling of blood. They possessed themselves of the first revolution which ended in Napoleonism. They were the support of the second empire and under Thiers they installed the present republic, and under Grévy they grew fat on it. I cannot excuse M. Floquet for playing into their hands less through fear of Boulanger than to spite him. Floquet is a better man than "our Joe," but he is in some respects the Chamberlain of the French Republic. Well, the Eiffel tower still ascends towards heaven, and the lightnings and thunders have not yet come. Peradventure, the shoals of Argentines who, you tell us, are about to abandon Patti for the Paris exhibition, may enjoy their "cotelettes" in peace, but in any case they can come over here in 95 minutes by the "Victoria" or in 108 minutes by the "Invicta," and they will find themselves well treated at the Grand, the Metropole, the Victoria, or at the new Savoy overlooking the Thames and Cleopatra's Needle. If they don't like "toujours d'am and heggs," they can get "uno con dos encima" at the late Lord Mayor Keyser's hotel, a little further east. "Puchero" is to be had in Harley Street, and also opposite, at Anderson's, the Prince of Wales' theatre; or they can bring their own cooks and teach us the latest marvels of the cuisine of your Paris of the South. They will find plenty of Americans here, and one in particular will be surely here, a Mr. E. Moody Boynton, who will give them a newly invented locomotive with bicycle wheels, which will draw them and their belongings from B. Ayres to Mar del Plata in 45 minutes. Now, Great Southern! Stir your stumps and annihilate distance and all competition.

Your late Minister of Finance has found imitators in England. A "Free Trade in Capital League" has been inaugurated. The object is Free Banking and unlimited issue of paper—within those natural limits which the individual credit of banks of issue must impose. I need not say that Mr. Egmont Hake is the moving spirit. He wants of course nothing more novel than the introduction of the Scotch system of banking into the southern kingdom. The league is, however, one amongst many signs of the times now very prominent, and they have all one portent. "Similia similibus curantur." Monopolies of all kinds are about to merge into one large monopoly—the State. "We are all socialists now," said the fat knight Sir William Harcourt. By the way, there is a fellow who can give him points. A farmer in the north of Scotland offers to weigh with any man north or south of the Tweed. He turns the scale at 29 stone 13 pounds. I speak from memory and will not guarantee the pounds.

THE CROWN PRINCE OF AUSTRIA.

PERSONAL RECOLLECTIONS BY ONE WHO KNEW HIM.

A correspondent who hails from one of the dominions over which the deceased Prince would one day have swayed his sceptre, and who had several opportunities of observing the Prince, as a soldier, a *dilettante* in literature, and a man of the world, sends us the follwing recollections:—Crown Prince Rudolph was not one of those men who impress you strongly and lastingly by their personality. He was an amiable young man, without very pronounced views or passions. As Royalty goes, he was decidedly above the average intelligence, and he was clever. Having lived for more than thirty years, his character can be judged pretty accurately, but it would be difficult to conjecture what kind of ruler he would have made had he survived his father. The fact is he had no political will of his own, and he was constantly swayed to and fro in his inclinations and predilections. Now he was a Hungarian patriot, anon he favoured the Bohemians at the expense of the other nations and nationalities of the Dual Monarchy; now he was a rigid soldier, anon he mixed ostentatiously with political reformers, and so on through all phases of public life. Accordingly he was sometimes popular and sometimes the reverse with the same classes of the community; sometimes he was looked upon as the hope of the future, and sometimes the most humdrum reign was predicted for him; sometimes he was even feared. Speculation on this score is now useless; but a few words may be said of the man as I know him from occasional intercourse during the last dozen years. He always appeared to me to possess plenty of intellect. Although always surrounded by a host of advisers, in smaller matters he was never influenced by any one, but acted independently, with much good sense and natural frankness. I saw him command his division at the army manœuvres, and notwithstanding his young years he went through his task with undeniable credit to himself. Lately he was made chief inspector of the infantry, and scarcely had he finished a tour of inspection of his troops when he at once proposed some important reforms affecting that branch of the army, proposals which are believed to have entirely emanated from him. Stronger, however, than his military inclinations were his love of sport and his literary ambition. In spite of his anything but strong constitution he was an intropid sportsman, there not being a shooting or hunting district in all Austria-Hungary that he did not visit at one time or other during his short life. He published several volumes on his shooting expeditions, and that was the origin of his literary career. He soon made friends, not only with some of the best authors of Austria and Hungary, but so anxious was he to be considered one of them that he—a descendant of the Habsburgs!—offered even terms of familiarity to some humble reporters. It is related with great gusto in journalistic circles in Vienna and Buda-Pesth that once a cheeky Hungarian reporter—for some reason a special favourite with the late Crown Prince so far forgot himself as to give a letter of introduction addressed to the Crown Prince to a young colleague who went to Vienna in quest of a situation. Since he assumed the chief editorship of the great ethnographical work "Austria-Hungary in Word and Picture," he often entertained his contributors to unceremonious luncheons and dinners, not of course at the Castle, but at some good hotel' and he always greatly enjoyed their rather mixed company. This was indeed a new departure in the traditions of this family, which the old Conservative officials of the Court did not cease to lament, but the Crown Prince was quite a modern man in such matters. Personally he had no enemies or detractors, for, without being a genius or a charmer, he managed to favourably impress all those with whom he came in contact. The last time I saw him and had a conversation with him was in London, during the Jubilee week in 1887. It must be confessed that I noticed a great change in him from what I used to know him for. Although he was then not quite twenty-nine, he seemed almost an old man. His head getting bald, his voice extremely feeble, his look tired: there was nothing in him to remind me of his youth-excepting his splendid figure, which, however, did not look to advantage in civilian dress. I saw him also at the service in the Abbey, and also at the great Austro Hugarian ball at the Hotel Metropole, and, although his fine Austrian General's gala uniform considerably improved his appearance, I could not help thinking that that was not the body of a man destined to have a long spell of reign over the Austro Hungarian Monarchy.

SEED TIME IN PARAGUAY

To the Editor of the STANDARD.

Sir,

The arrival of Dr. Stewart in your city was the cause of much heartfelt rejoicing in Asuncion, I may say throughout Paraguay; the country has so long lain fallow that now that the seed time has come, a rich harvest may be expected, as good seed has been sown; to wit the sale of the existing railway and its extension to the Alto Parana, where it will be within touch of the Argentine (Corrientes line of Clark & Co.). This will open out a rich country on its track and fine camps studded with splendid pastoral and agricultural lands and innumerable magnificent cedar and other woods.

Dr. Stewart deserves well not only of the Paraguayans but of his countrymen and various foreigners who have bought large tracts of land in Paraguay, all good seed well sown; he has persevered under many difficulties to bring this afiair to its successful issue; the appearance also of Mr. Valpy again in Paraguay as the English Bond-holders and London Paraguayan land Co.'s Agent, has its significance for those who can read between the lines. The Argentine Paraguayan Land Company I hear are also working quietly but steadily, and the air is thick with new enterprise to follow in the wake of those companies. Now let them take a long and a strong pull together; then the seed will not have been sown in vain, and a bountiful harvest will be gathered. The iron horse is a grand colonizing agent; roads, bridges, and emigrants will follow.

The advent of the Engineers and Contractors for the railway, who we hear are on the way up with Dr. Stewart, will be hailed with delight; and with such gentlemen as President P. Escobar, Ministers Don José Decoud and Col. Macer and ex-President Caballero to guarantee British interests in the future, such a future for Paraguay will be assured that its most sanguine sons never even dreamt of.

Yours truly,

Observer.

Asuncion, March 15th 1889.

AGRICULTURE IN GREAT BRITAIN.

An English correspondent writes to us under date Feb. 15:—

"Winter commenced in earnest at the beginning of this week, with 13 degrees of frost on Saturday night or Sunday morning. Two nights later there were 14 degrees of frost, and on Wednesday night 12 degrees. Snow, which commenced to fall on Sunday, is thick on the ground, and all field work is suspended. As certain autumn-sown crops and fruit trees also were getting dangerously forward, a check was desirable; but a little of such weather as we are now experiencing goes a long way, and farmers hope for a speedy change to enable them to sow their beans and peas, and afterwards their barley and oats. We seldom get a good bean crop when it is sown later than the first or second week in March, while the last week of February is preferable. As to barley, the great thing now is quality, which is only to be insured by early sowing. Before the frost came the wheats were looking remarkably well, the only complaint being pieces for the time of year. The lambing season hitherto has been a good one; but this severe weather is trying to the young lambs, and in the hilly districts, where grass is usually the sole subsistence of the ewes, flockmasters will have to provide hay or other food while snow covers the ground.

CORRECTION.

B. Ayres, 21 March 1889.

To the Editor of the STANDARD.

Dear Sir,

There is no truth in the statement made in your paper of to-day that Mr. Grooves (sic) goes up to Mendoza to assume the management of the Oeste Argentino. Please correct the statement.

It is to be regretted that your reporter in railway matters should be so constantly misleading in his information and should have chosen a Packet Edition to make this most incorrect statement.

Yours faithfully,

T. E. Preston.

(ED. NOTE—Our correspondent is in the wrong groove. We know for a fact that Mr. Grooves is leaving the Southern R. R. and is going to Mendoza on railway business. Our reporter was misinformed yesterday as to the position that Mr. Grooves is about to occupy; he goes in connection with the Traffic Department; but he goes, which is the main point.

LORD MAYOR CRANWELL'S REPORT.

An official document which deserves more than ordinary attention is the Municipal report just issued for the month of January. It comes somewhat late in the day, as in other countries which perhaps do not boast of so competent a Corporation as ours such a report would be issued immediately on the expiry of the month. After all this desired punctuality in the publication of official and consequently reliable reports depends mostly on method. With 15 minutes' extra work every day, perhaps less, the [illegible] difficulty manag[illegible] metres. The traffic on the line must be enormous.

A decree was issued last evening from the Home-Office fixing the kilometric cost of the line from Reconquista to Formosa at $28,540 gold. Messrs. Pelaez and Co. hold this concession.

The plans of the first section of the Central Argentine Railway concession from San Fernando to Pergamino have been submitted to Government. The first section stretches to Capilla del Senor; the second terminates in Pergamino.

Messrs. Lucas Gonzalez and Co. have paid Government $60,000, cost of certain expropriations in the Central Northern Extensions.

EDITOR'S TABLE

We received yesterday from Mr. O'Meara, the Argentine Emigration agent in Dublin, a letter that had at first quite as Woolwich-Infant an effect on us as Minister Varela's decrees had on the Bolsa on Wednesday. Mr. O'Meara makes the stunning announcement that there are *five hundred families*—say *two thousand souls*—waiting in Ireland for steamers to take them to the Argentine Republic! We recovered our equanimity, however, on remembering that Minister Costa had telegraphed to Mr. O'Meara telling him to stay all emigration from Ireland till the Emigrants' Committee here drop him a line. The bare idea of two thousand more people dropping in on us, and having to undergo what the Dresden's passengers suffered before they got settled puts one in a perspiration. We hope Minister Costa's cablegram arrived in time.

The daze and dizziness in Bolsa circles caused by Wednesday's decrees continued yesterday, but outside the Temple of Mammon things went on much as usual. It will take some time for the new order of things to take root—if they ever do. At closing hour on the Bolsa yesterday the excitement was truly tremendous.

There will be Swimming Races at the Tigre on Monday. The Bridgett Silver Cup is a beautiful piece of solid silver plate, and well worth trying hard for. At Montevideo, on the same day, there will also be Swimming Races.

There was most sensational news from Montevideo yesterday evening; something in the Volpi and Patroni line. It appears that Dr. Real has accused two colonels in the army of torturing twelve boys to death in the school of Trades, whon they were at the head of it two years ago. The most terrible sensation has been caused in the sister city by these revelations.

The first of the long lines of the Buenos Ayres Telephone Company, that to Chascomus, was inaugurated yesterday. There were a good many people present, and the results were most satisfactory.

We learn by an interesting circular that the Young Men's Christian Association of Buenos Ayres will make its debut on the 1st of next month, at 600 Calle Patagones, corner of General Hornos. Its very meritorious object is the spiritual, moral and physical improvement of its members. There will be a Gospel Service on Sunday next 24th, at 3.30, conducted by Mr George Graham and Mr. George Smith. There will be "cheerful singing", from the select repertoire of Messrs. Moody and Sankey.

If anyone knows anything of John Kettle, a Cockney, 26 years old, last from Salt Lake, they should advise Scotland Yard. Kettle is supposed to have gone to pot, here or elsewhere, having abandoned seven wives in Utah City.

The City Fathers no-quorumed again on Wednesday. They were all so flabbergasted by Minister Varela's decrees that they had not the heart to even devise a new tax; and Town Councillors must be in a very bad way indeed when their hearts fail them in that direction.

There was little or nothing in the papers yesterday except Minister Varela's Preamble and decrees. We intend publishing it in chapters, as it is quite too long for one of our issues.

Everybody was in such a fever of excitement yesterday about the gold decrees that any kind of rumour was greedily swallowed. There was one of a yellow fever case in Asuncion, but it was subsequently denied on good authority.

One of our most esteemed colleagues has taken the trouble to count the railway accidents in the republic since the 1st inst. They sum up *ten*. The fatal month of March—fatal especially for the railways and the gold ring.

Lord Mayor Cranwell got his album on Wednesday. About dinner hour a regiment of friends arrived at his private residence and were shown in. Mr. Villafañe handed the album to his lordship, and made a neat speech expressive of the gratitude of the residents in the west and south of the city for all he had done to improve those districts since he entered office. The Lord Mayor replied in graceful terms; and then Canon Vita, of Flores, and Don Hector Varela "took the word" in the order named. Two military bands and one private kept up an incessant flow of "musica" during the ceremony, which was not very long,

Telegrams from Rosario yesterday say that commercial men there are rather pleased with Minister Varela's whopping debut in the National Finance department. In this city all sorts and sizes of men are still thinking over the matter, and are waxing quite pale and thin with the intense mental strain. In Rorasio they appear to make up their minds as quickly as a bed is made.

A remarkable work, "Robert Erlsmere" by Mrs. Humphrey Ward, is, without doubt, the finest theological novel of the century. In its studies of character and incident, and above all in its scholarly learning, this book is on a level with George Eliot's best work. There is only one fault in the novel: i. e., with the exception of the hero and Wendover, the men are all prigs of the priggiest description. We may mention that "Robert Erlsmere" has been read, admired and criticized by no less a personage than Mr. Gladstone.

At the meeting of the Press Association on Wednesday the following gentlemen were elected on the new Committee:—President, Manuel Gorostiaga. Vice-President 1°, Jose M. Mendia. Vice-President 2°, Dr Alberto Blancas. Secretary, Sabas P Carreras. Pro-Secretary, Paul Giro. Treasurer, Ignacio Orzali. Pro-Treasurer, Juan J. Mulhall. Vocales—Dr Eleodoro Lobos, Joaquin L Carreras, Luis Ottolini, Mariano de Vedia, Modesta Rodriguez Freire, Cuberto Scholbred, Juan Ortiz de Rozas and Samuel Alberu. The following were named as a Tribunal of Honour to arrange any little unpleasantness that might otherwise lead to "[illegible] and coffee for two": Dr Leandro N[illegible], Emilio Mitre y Vedia, Dr Eleodoro [illegible], Antonio Bachini, Samuel Alberdi, Garcia Merou, Felipe J Moreira, Dr Al[illegible], Blancas, Juan J Garcia Velloso, Justo [illegible], Lopez de Gomara, Juan Yarcks, Santiago Albarracin, Rodolfo A Muñoz and Dr Carlos Rodriguez Etchart.

We note new Centros Agricolas applied for every day; and unless the new Finance Minister in La Plata pulls things in this direction up with a sharp rein, there will be worse than hot pitch in Cedula regions long before the Millennium appears on the horizon.

A thoroughly effective blaze is reported from Bahia Blanca, where Mr. Gurney's general store ended in smoke two days ago. Half the house, all the stock, and 2,000 nats. in currency in the till were destroyed. All insured. The head shopman has been arrested by order of the Chief of Police.

The rumour of the probable resignation of the Minister of War, General Racedo, was semi-officially contradicted yesterday.

Next Monday will be a holiday. The ball-alleys, we understand, have provided specially attractive programmes for that and the previous day.

The French steamer Nerthe has brought 198 emigrants, who have been consigned to the tribulations of five days' sanitary observation in what our Health authorities are pleased to call the "Lazaretto" on Martin Garcia Island.

We learn from our Rosario Correspondent W. P. that the question of the day now up there is—"Are you a railway Christian or a town Christian; but the parties have not yet come to open hostilities. We hope they will halt where they are.

In Florida the orange is cut in halves, and its juice and pulp [illegible]passed to the mouth with a teaspoon. In Havana the orange is served whole on the table, peeled down to the juicy "meat of the fruit," and you present the golden ball to your lips on the prongs of a fork.

A rural journal prints an elaborate apology for the mistake of its compositor in making it alludo to "Gen. Blank, that gallous old saw-horse," instead of "that gallant old warhorse.

The enquiry into a fire in one of the State Schools at Barracas some time ago has elicited the interesting fact that it arose through a lot of rockets intended for the Santa Lucia Fetes being stored in the school! A nice place for fireworks, in the midst of hundreds of little ones! No more striking instance of inflammable matter on the wrong place has yet come under our notice.

The Rev. Mr. Fleming's notice in our issue of yesterday has spurred on several promising bachelors to screw their courage to the proposing point. There is no time to lose—only nine days: or write home for the baptismal certificate.

Another bull-fight is announced at Colonia for next Sunday, and probably another lot of foolish people will brave sea-sickness to see the fiasco, as they did last Sunday.

According to Chinese history, the small feet among the females of that people originated several centuries back, when a large body of women rose against the Government and attempted to overthrow it. To prevent the recurence of such an event, the use of wooden shoes was enforced on all female infants, so small as to disable them, without great pain, from making use of their feet.

We received the following yesterday:—

Scotch Church,
Barracas, March 17, 1889.

Dear Sir,

Will you kindly allow me a little space in the columns of your interesting paper to acknowledge publicly to Mr. Thomas Drysdale, his recent gift of about one hundred books for the Library of our church.

This gentleman has by repeated proofs of his interest in our work laid us under so many and deep obligations that we find it very difficult to suitably express our gratitude; in fact we are certain that we cannot find the necessary words.

Yours obediently,

Librarian.

The *Sud-Americano* is again splendid this time. It fairly bristles with portraits of the late Generals Zapiola and Lucio Mansilla, the late doct

Base de venta $80 la hectarea.

En nuestra casa Alsina 482

El Miercoles, 27 de Marzo
A las 2 p, m.

Remataremos con la base arriba fijada dinero de contado por cuenta y orden del su dueño el campo arriba mencionado, compuesto de 255 cuadras cuadradas, distante 10 kilometros de la Estacion y pueblo de Ranchos y 3 kilometros de la via ferrea del Sud al Salado frente al kilometro 118 al Sud Oeste del Ferra-carril del Sud.

El campo esta perfectamente alambrado y dividido en Chacra y potrero.

La chacra está toda sembrada de maiz alambrada por todos sus costados.

El campo como se ve es adaptable para la agricultura, asi es que creemos inutil decir mas nada sobre él.

Es una linda porcion de tierra destinada á dar una buena renta a aquellos que no quieran esplotarla personalmente.

La Base de venta es de noventa pesos la hectarea.

Planos y pormenores pueden obtenerse en nuestra casa Alsina 482.

Transferido para el Lunes 25 á causa del mal tiempo

En la colonia AZARA, partido del Baradero magnificas

CHACRAS

para vender y para arrendar todas con edificios hipotecarias.

El remate se efectuará en el Hotel de las Naciones, plaza principal del Baradero. Base de venta 150 pesos por hectarea.

Lunes 25 de Marzo,

á las dos en punto de la tarde.

remataremos por orden terminante de su propietario y con la base de venta arriba señalada, 10 esplendidas chacras de treinta hectareas cada una, medidas y amojonadas, situadas en la colonia Azara, partido del Baradero, Cañada Honda.

Cada chacra reconoce una hipoteca de $110 por cada hectarea edificada de la serie F y M con la cual podrá continuar el comprador pagando la diferencia del precio á que esten en la Bolsa el dia antes del remate. El propietario se reservará terreno para un pueblo que se dividira en lotes y se venderan en remate oportunamente, al mismo tiempo remataremos el arrendamiento por 5 años de once chacras de 100 hectareas mas ó ménos cada una, y 6 chacras de treinta hectareas por el término de un año. Base del arrendamiento 8 pesos anuales por hectarea.

Esta colonia se establecera sin acogerse a la ley de Centros gricolas de la provincia; de manera que los compradores no contraeran la obligacion de cultivar una proporcion determinada de su terreno y recibiran las escrituras en seguida de concluido el negocio.

NOTA: El ferrocarril sale de la estacion central a las 7.30 a.m.

Otra: Los planos detallados pueden obtenerse en nuestra casa calle Alsina núm. 482.

Otra: Para ver el campo puede tomarse el F.C. del Oeste hasta San Antonio de Areco, o el del Rosario hasta el Baradero. La galera sale de San Antonio de Areco pasando por la colonia los dias 1, 4, 7, 10, 13, etc., y regresa del Baradero al dia siguiente. La Colonia dista de San Antonio 34 leguas y del Baradero 8 leguas. El ferrocarril Central Ferrocarril a Buenos Aires tendra una estacion frente a Colonia.

Nota importante: Todo comprador sin excepcion entregara al firmar el boleto el 10 ojo del valor de la compra.

EXCEPCIONAL REMATE
de las chacras, quintas y solares que componen la colonia
MAXIMO PAZ
sobre el F. C. de Cañuelas
con estacion propia y á una hora de la capital de la republica.

EL LUNES 25 DE MARZO
dia de fiesta,
á la 1 p. m.

Rematarémos por cuenta y orden del Sr D. Emilio Duportal las esplendidas chacras, quintas y solares del Centro Agricola "Maximo Paz." Jamás se habrá vendido en esta forma una estension de tierra tan selecta y tan cercana á la capital de la república. Venta liberal; tiene por base el valor de las cédulas hipotecarias que corresponde á cada lote, pagadero en 20 años y bajo las prescripciones de la ley de Centro Agricola.

El remate tendrá lugar en el mismo CENTRO AGRICOLA. Nota: tren expreso de ida y vuelta gratis.

Es conveniente que los agricultores se den cuenta exacta de la situacion excepcional de este centro agricola que como decimos más arriba queda solo á una hora de la capital federal.

No hay ningun centro agricola por el momento que esté en iguales condiciones al centro Máximo Paz con el ferro carril sobre el mismo terreno y su estacion propia.

Las chacras están todas alambradas con 5 hilos, tranqueras correspondientes, etc., etc.; de manera que el agricultor no tiene sino comparse de hacer producir la tierra.

Creemos obvio demostrar detalladamente lo que produce tierra bien cultivada y que con ello puede el agricultor pagar no solo el interés y amortizacion igual de la hipoteca sino algo mas; asi que es inutil insistir sobre la conveniencia que tiene el comprador al hacerse cargo de la hipoteca que tiene cada lote y que servirá de base para la venta tomando las cedulas al precio de Bolsa, cuña diferencia y demasia de precio si lo hubiere, se pagará al contado el dia que reciba el boleto definitivo, que será a los 15 dias del que se verifique el remate.

El comprador que quiera recibir el titulo de propiedad, puede obtenerlo pagando el importe total (libre de hipoteca) al extenderse la correspondiente escritura.

Esta venta se hace á la ley de centros agricolas que como se sabe ofrece grandes ventajas al agricultor.

Por planos detallados ocurran á nuestra casa Alsina 482.

Nota—El comprador entregará el 5 ojo al firmar el boleto de compra.

Obra—El remate empezará despues de un almuerzo campestre.

El Miercoles, 27 de Marzo
A las 2 p, m.

Remataremos con la base arriba fijada dinero de contado por cuenta y orden del su dueño el campo arriba mencionado, compuesto de 255 cuadras cuadradas, distante 10 kilometros de la Estacion y pueblo de Ranchos y 3 kilometros de la via ferrea del Sud al Salado frente al kilometro 118 al Sud Oeste del Ferra-carril del Sud.

El campo esta perfectamente alambrado y dividido en Chacra y potrero.

La chacra está toda sembrada de maiz alambrada por todos sus costados.

El campo como se ve es adaptable para la agricultura, asi es que creemos inutil decir mas nada sobre él.

Es una linda porcion de tierra destinada á dar una buena renta a aquellos que no quieran esplotarla personalmente.

La Base de venta es de noventa pesos la hectarea.

Planos y pormenores pueden obtenerse en nuestra casa Alsina 482.

En la colonia AZARA, partido del Baradero magnificas

CHACRAS

para vender y para arrendar todas con edificios hipotecarias.

El remate se efectuará en el Hotel de las Naciones, plaza principal del Baradero. Base de venta 150 pesos por hectarea.

Lunes 25 de Marzo,

á las dos en punto de la tarde,

remataremos por orden terminante de su propietario y con la base de venta arriba señalada, 10 esplendidas chacras de treinta hectareas cada una, medidas y amojonadas, situadas en la colonia Azara, partido del Baradero, Cañada Honda.

Cada chacra reconoce una hipoteca de $110 por cada hectarea edificada de la serie F y M con la cual podrá continuar el comprador pagando la diferencia del precio á que esten en la Bolsa el dia antes del remate. El propietario se reservará terreno para un pueblo que se dividira en lotes y se venderan en remate oportunamente, al mismo tiempo remataremos el arrendamiento por 5 años de once chacras de 100 hectareas mas ó ménos cada una, y 6 chacras de treinta hectareas por el término de un año. Base del arrendamiento 8 pesos anuales por hectarea.

Esta colonia se establecera sin acogerse a la ley de Centros gricolas de la provincia; de manera que los compradores no contraeran la obligacion de cultivar una proporcion determinada de su terreno y recibiran las escrituras en seguida de concluido el negocio.

NOTA: El ferrocarril sale de la estacion central a las 7.30 a.m.

Otra: Los planos detallados pueden obtenerse en nuestra casa calle Alsina núm. 482.

Otra: Para ver el campo puede tomarse el F.C. del Oeste hasta San Antonio de Areco, o el del Rosario hasta el Baradero. La galera sale de San Antonio de Areco pasando por la colonia los dias 1, 4, 7, 10, 13, etc., y regresa del Baradero al dia siguiente. La Colonia dista de San Antonio 34 leguas y del Baradero 8 leguas. El ferrocarril Central Ferrocarril a Buenos Aires tendra una estacion frente a Colonia.

Nota importante: Todo comprador sin excepcion entregara al firmar el boleto el 10 ojo del valor de la compra.

EXCEPCIONAL REMATE
de las chacras, quintas y solares que componen la colonia
MAXIMO PAZ
sobre el F. C. de Cañuelas
con estacion propia y á una hora de la capital de la republica.

EL LUNES 25 DE MARZO
dia de fiesta,
á la 1 p. m.

Remataremos por cuenta y orden del Sr D. Emilio Duportal las esplendidas chacras, quintas y solares del Centro Agricola "Maximo Paz." Jamás se habrá vendido en esta forma una estension de tierra tan selecta y tan cercana á la capital de la república. Venta liberal; tiene por base el valor de las cédulas hipotecarias que corresponde á cada lote, pagadero en 20 años y bajo las prescripciones de la ley de Centro Agricola.

El remate tendrá lugar en el mismo CENTRO AGRICOLA. Nota: tren expreso de ida y vuelta gratis.

Es conveniente que los agricultores se den cuenta exacta de la situacion excepcional de este centro agricola que como decimos más arriba queda solo á una hora de la capital federal.

No hay ningun centro agricola por el momento que esté en iguales condiciones al centro Máximo Paz con el ferro carril sobre el mismo terreno y su estacion propia.

Las chacras están todas alambradas con 5 hilos, tranqueras correspondientes, etc., etc.; de manera que el agricultor no tiene sino comparse de hacer producir la tierra.

Creemos obvio demostrar detalladamente lo que produce tierra bien cultivada y que con ello puede el agricultor pagar no solo el interés y amortizacion igual de la hipoteca sino algo mas; asi que es inutil insistir sobre la conveniencia que tiene el comprador al hacerse cargo de la hipoteca que tiene cada lote y que servirá de base para la venta tomando las cedulas al precio de Bolsa, cuña diferencia y demasia de precio si lo hubiere, se pagará al contado el dia que reciba el boleto definitivo, que será a los 15 dias del que se verifique el remate.

El comprador que quiera recibir el titulo de propiedad, puede obtenerlo pagando el importe total (libre de hipoteca) al extenderse la correspondiente escritura.

Esta venta se hace á la ley de centros agricolas que como se sabe ofrece grandes ventajas al agricultor.

Por planos detallados ocurran á nuestra casa Alsina 482.

Nota—El comprador entregará el 5 ojo al firmar el boleto de compra.

Obra—El remate empezará despues de un almuerzo campestre.

Sin base Sin base.

El Viernes, 29 de Marzo
A LAS 3 P.M.

Estos hermosos campos pertenecientes á los herederos del finado Adolfo von der Wall, mayores de edad, situados en el pazaje mas importante de la provincia Rio IV, se componen de 42,532 hectareas 69 areas 17405 cts y se remataran en cuatro lotes con arreglo á la mensura practicada por el agrimensor publico Sr. Eduardo de Saint Remey Urban aprobada por el departamento topografico y juzgado de letras, siendo la superficie de los cuatro lotes la siguiente:

1—La suerte no. 1 (San Bernardo) 4342 hs. 77 as. 18 535 cs.

2—La suerte No. 2 (Bengolea) 12 069 hs. 29 as. 9) cs.

4—La suerte No. 3 (Montenegro) 14,206 hs. 92 as. 21 cs. el terreno cacivado 920 hs 24 hs 70, 622 el formando un total de 15.127 hs. 16 as. 91,620 cs.

4—La suerte No. 4 (Montaño) 10,993 hs. 45 as. 16.250 cs.

Superficie: 42,532 hs. 69 as. 17,405 cs.

Las mejores encontradas son las siguientes:—

El lote num. 1 (San Bernardo) Una acequia del Sr. Ambrosio Olmos, que atraviesa toda la cabecera, otra del mismo pasando por la esquina nordeste; una casa habitacion de 2 piezas de adobe y 2 cuartitos; un pequeño corral de ramas y un cerco alambrado de 6 cuadras sembradas con alfalfa. Al norte de la acequia principal de Olmos hay un bajo rogable de gran fertilidad hasta la ribera de Rio IV., poblado en su mayor parte con arboles de calder, algarrobo, tala, molle y sauces. El costado este está alambrado por el Sr. Olmos, habiendo dejado la mitad de la calle libre para el transito ó camino que va al pantano.

Numero 2—Una casa de adobes de 2 piezas, 2 cuartos y una ramada en buen estado rodeado el patio de arboles frutales y sauces, un corral grande de zanja y un cerco de alfalfa de 3 cuadras cuadradas.

Numero 3—El puesto que arrendo D. Mariano Arguello, compuesto de una casa de adobes con cocino, una ensenada alambrada de 70 por 130 metros con manga y un corral de palos a pique.

Numero 4—En la suerte vendida por D. uis Montaño á von der Wall, no hay establecimiento; el costado norte esta alambrado por D. Ambrosio Olmos y el del este por los Sres. Juan Garcey y Mariano Velez.

Es escusado de clasificar estos campos, son bien conocidos en toda la republica por ser de primera calidad. A pesar de haberlas pastoreado muchas haciendas, sus pastos son siempre buenos, como lo demuestra el estado de gordura; y una vez alambrados, en vista de sus considerables cañadones y bañados, y mezcla de pastos tuertos y yerbas amillares, se prestarán no solamente á la cria de hacienda, sino tambien ventajósamente á la agricultura.

La venta se efectuará sin base, en la capital federal, en nuestra casa Alsina 482, onde pueden ocurrir los interesados por lanes é informes. 507 f27 m29

Importantisimo Remate de nueve chacras, en la colonia
Felix. F. Lynch
Partido de Chacabuco.

Domingo, 24 de Marzo
A las 3 p.m.

Remataremos por cuenta y órden de uno de los concesionarios del centro agricola Felix F. Lynch, situado en el partido de Chacabuco, nueve chacras de dicha colonia inmediatas y amojonadas.

Base de venta 60$ la hectárea. El comprador se hará cargo de la hipoteca del lote que adquiriere y abonará la diferencia entre la cotizacion de la cédula en plaza y el precio á que compre la tierra al contado; ó con un pagaré á 365 dias con 1 o/o de interés mensual.

De acuerdo con los artículos 31 y 32 de la ley de centros agricolas, el comprador recibirá la escritura definitiva á los tres años siempre que haya cultivado la mitad cuando menos de su terreno.

Se llama la atencion de los agricultores sobre las grandes ventajas que les acuerda la ley citada. En primer lugar, acreditando que han cultivado la mitad por lo menos de su chacra gozaran de una rebaja de un 25 o/o de los fletes establecidos para el transporte de su produccion en los ferro-carriles del estado y en los de empresas particulares tambien si el gobierno lo consiguiese como lo ha obtenido ya de las principales.

En segundo lugar, los créditos que les acuerda el Banco de la Provincia gozaran de la pequeña amortizacion de 10 o/o al año, art. 25. Ademas no tendran que pagar contribucion directa ni otro impuesto alguno durante 3 años, art. 44 y finalmente las escrituras se otorgaran en papel simple, art. 42.

Conviene advertir que una misma persona no podrá adquirir mas de 300 hectareas, art. 40, durante los 3 años en que estan obligados a cultivarlas.

El centro agricola Félix F. Lynch esta ventajosamente situado, casi á iguales distancias del pueblo de Chacabuco, 6 leguas del Salto, de Rojas, de Junin y de los Cardales con Echevarria (F. C. de la P.) y la linea de San Pedro a Mar del Plata, concedida al Sr. Morra y próxima a construirse pasara por la colonia 6 de lo contrario enviara un ramal hasta ella segun arreglo celebrado con los propietarios.

La estacion estara situada en el medio del pueblo a fundarse.

El terreno es alto, de buena tierra y sin desperdicio, especial para el cultivo del trigo y del maiz.

Al mismo tiempo, remataremos sin base, el arrendamiento por un año de los lotes contiguos a los que vamos a vender.

El pago del arrendamiento se efectuara la mitad adelantado y la otra mitad tres meses despues de levantada la cosecha.

El remate se efectuara en Chacabuco en casa de los Sres. Blanco y Villar.

Nota: La venta de los lotes de pueblo comenzara cuando principie la construccion del ferro carril de San Pedro a mar del Plata.

Nota: el ferro-carril al Pacifico sale de la estacion Central a las 7 y 30 a. m.

As it was understood that this would be the last day in gold, the ring this morning was a perfect Babel, with the precious metal being feverishly scattered about and snapped up on all sides as brokers hastened to close off the operations of those clients who have taken alarm at the summary suspension of the speculation. Those not actually interested in operating added to the tumult by the fervour with which they discussed the Minister's thorough policy; for thorough it certainly is; and whilst some argued it arbitrary and illegal, others sustained it on grounds of absolute necessity, and asked for it a patient and fair trial. In any case, the Minister himself will see to this. The dissentient brokers, however much they may storm, will have to bow their heads to the gust, and wait for time to show if the thorough policy is a mistake or a brilliant financial manœuvre. Meantime they say that the houses will all begin to metallize now on a wholesale scale, and that gold formerly passed from month to month at interest will be remitted to Europe. This would certainly be probable were not the intentions of the Minister so well known and confidence in him so strong; but these bulwarks of the situation are so powerful that in all probability when opinion has calmed down matters will assume a more normal aspect.

Operations in gold at the first ring embraced about 4½ millions, of which the bulk went to end of month and April. Rates opened high all round at 158.50 for cash and 158 for end of mouth, and though fluctuations were fairly heavy the rates closed for all dates in the neighbourhood of 158. As to the future movement of the premium much conjecture is hazarded, many opining that the quotations will soon be over 60 o/o, whilst others think that they will fall to below 50 o/o. Thus everything and everybody is in a state of expectancy, and the bank-managers have shut their doors to brokers looking out for discounts until they see how matters turn out. On the principle of its being an ill wind that blows nobody good, stocks have begun to feel the effect of a speculative spurt that will probably be intensified as the interests centred in gold become released. Nearly every share shewed unwonted symptoms of briskness to-day. National Bank Shares opened for end month at 263, dropped to 262.50, reacted to 265.50 and closed at 264. Credito Real improved to 138 for end of month and 137 end of April. Constructors were steady at 125, Obligations at 15. Cedulas were dull and a trifle weak.

The following is a summary of operations effected this morning at the first ring:—

Governor Paz was interviewed yesterday by a Committee of the Sociedad Rural with regard to the excessive zeal displayed by the official valuators in assessing the "contribucion directa" tax for the province." As is well known, the estancieros protested so vigorously against the iniquity practised against them that the question became the burning topic of the day, and Governor Paz informed the Committee that the matter was already under consideration.

As a corrollary to the above, public opinion is much excited over the manner in which the new "cloacas" tax is being arranged. Not content with the enormity of levying in gold when the money of the country is paper, it seems that the principle on which the rates are fixed is an absolute enormity. We know of one instance in which a tenant who pays 300 dollars paper has had the property taxed at 1,000 gold, or say 1,500 paper. It is needless to add that this new burden will fall on the tenants, and not on the landlords, so that in conjunction with paying rents under which the whole city is at present groaning tenants will in future have to make a provision for a very startling increase. Who will venture after this to don the advisability of living in Colonia and crossing the water daily?

The sale was reported yesterday of the Sotomayor colony in Departmento de las Colonias Sta. Fe for 270,000 dollars; the property covers 6 leagues, buyer Mr. J. Crespo, seller Mr. Sotomayor. A property, containing 4,000 yards in Calle Rioja, near corner of Mejico, has been sold for 50,000 m/n to Mr P. Bravo; the price comes out at 17 dollars the square yard.

Mr Rufino Basavibaso has purchased 1142 hects. of camp in Carmen de Areco for 130,000 dollars, or say 113 dollars the hectare.

A decree was issued yesterday appointing the Board of the Office of Agriculture of the Province, and as this board will be so closely linked with the proper execution and vigilance of the famous Agricultural Centres law we give the names:—President and General Director, Dr. E. J. Weigel Munoz; Vice-President, A. Oyuela; Directors, B. del Castillo and P Lascano jr.; Secretary and Vice-Director General, Carlos Lemee.

The Pacific steam packet John Elder arrived in Montevideo to-day from Liverpool with dates to 23d ult.; her mails and passenger list will be up to-morrow.

Mr. J. J. Smith, of the firm of Morgan and Smith, leading ship-brokers, comes out from England in the Cotopaxi.

Advices from the Mount announce a rumour in general circulation there of a syndicate of Argentine capitalists having purchased the Paullet and Pineyrua Saladeros, the Buchenthal estancia, Luengo chacra, and the property known as the Rincon de Lecoc, for five million dollars, whilst another syndicate also Argentine is said to be buying large tracts of camp along the coast. With regard to Dr Reus and his creditors it seems that everything will be arranged on a basis of his receiving the shares at 40 o/o and giving bills at 6 months for 20 o/o of the differences; the majority of the creditors have already signified their adhesion to the proposal.

Freights, which have latterly ruled dull, are now beginning to recover, owing to brisker movement in produce and more offering for export. The rates now are 20 francs for bales for France, Italy, Belgium and 20 shillings for England.

The National Bank discounted yesterday $1,850,000 between gold and paper. The Provincial Bank did nothing.

The following, taken from an official return, shews the standing and issue circulation of the various banking concerns of the Chilian Republic on 31st December last:

The President of the City of Buenos Aires Mortgage Bank has addressed a note to the Minister of Finance, drawing his attention to the fact that it would be more expedient for the country's interests if he were to deposit gold Cedulas A in place of gold bonds, as buying the latter means exporting gold. The amount of deposit is 5 o/o of the bank's emission.

Messrs. Medici and Co. have applied for privilege to build a wharf in front of the Recoleta Station.

The insurance company, Union Italiana, capital 3 million dollars, has applied for registration of statutes.

Mr. George Ponsonby Craufurd was welcomed on Change to-day on his return from the Cuyo provinces. He states that the interior has immensely improved since his last visit many years ago. The Andine provinces are rapidly coming to the front and are awaiting a period of great development when their mineral wealth is turned to account.

About three o'clock the news got wind that the Camara Sindical had unanimously decided on declaring open war against the Minister's edict. This decision was arrived at after careful consultation with all the leading jurisconsults of the Argentine forum, amongst them an ex-Finance Minister, and at the ring the news created the greatest sensation. After operations were over the hall became a veritable beargarden. Such was the excitement that one of the brokers who mounted the historic steps to read the decision of the Camara could scarcely get a hearing and when he announced that the Chamber had decided on open war the excitement reached a climax. It now remains to be seen what course the the Minister will take, as in all probability he has foreseen the present state of affairs. It is presumed that he will take immediate action and exercise his authority, but nothing definite as yet is known.

The gold premium at the second hour shot up most unexpectedly for all dates, and closed so firm that it is expected that quotations will advance even further for to-morrow. About three millions were disposed of, the closing rates being 158.70 for to-morrow, 158.80 end month and 159.20 end April. In stocks there was fair activity. National Bank Shares declined to 262.50 for end month and 262 end April; this seems to point to a descubierto, as shares for cash are quoted at 264.50. La Plata Moles advanced to 131 for end month and 135 end April. The other shares kept firm.

There is little or nothing doing in exchange, the rate being quoted 47-47½.

A leading merchant sends us the following:—

"Speculation cannot in the long run affect the price of gold.

"It does not cause export or import of gold nor reduce or increase amount of paper.

"Speculation acts on and follows certain currents. These currents are the result of supply and demand (or business requirements,) opinions, &c. confidence or the lack of it in the possible future.

"Speculation is bad because it increases oscillations, but these oscillations are the inevitable result of legitimate business and to attempt to do away with them so as to do away with speculation does much harm and inconvenience to legitimate business. Doing away with speculation cannot permanently affect the price of gold, the necessity of immediate liquidation of speculation will cause a rise or fall, but any future move will not be result of this decree. It is not possible to suppose that a simple decree which in no way affects the foundations of the cause can remove the effect.

"Varela's action is absolutely weak, it does not strike at the root of the evil which is the cause—does not give confidence—or show any promise of increasing the value of paper—does not improve the so-called guarantee, or make it in any way effective, and does not hold out any hope of the balance of trade and government expenditure.

"The point where speculation ends and business begins is indefinable, consequently to allow one and stop the other is impossible."

The sale was reported to-day of four leagues of camp in Olavarria for $390,000, buyer Dr. Miguel Laurenceua.

Luminous Phosphorus! Important to Invalids!
All Medical Authorities agree that Phosphorus, administered in its free—that is, uncombined—state, is an invaluable remedy in disorders of the Nervous System, especially in Loss of Nerve Power, Mental Depression, Incapacity for Work, Want of Energy, Neuralgia, Feeble Digestion, Loss of Physical Vigour. In these and other conditions indicating defective nutrition or exhaustion of the nervous centres, arising from over-work, the effect of climate, and other causes, it is the only effectual remedy.
The four great Remedies for Nervous Disorders
Phosphorus, Iron, Quinine and Nux Vomica
each in its proper dose, are prepared in combination, in the form of Compound Phosphorous Pilles. They are coated to render them tasteless, and supply the best and safest means of administering the above powerful tonics.—Sold in bottles 3s. 5s. and 10s. (English money.) The 10s. bottle containing sufficient for a course of 3 weeks. Two 10s bottles may be obtained direct from the makers' laboratory, carriage paid, by remitting Post-office order for 25s.
